- (a) constitute an offence under subsection (1); or
(b) constitute an attempt to commit an offence under subsection (1).

For the purposes of this section, "attempt" means an attempt to commit an offence under subsection (1) if—

(a) the person acts with intent to commit the offence; and

(b) the person acts with intent to do something which would, if successful, result in the commission of the offence; and

the person's act is done with intent to effect the commission of the offence.

(4) Section 4

the first time in the history of the world, the people of the United States have been called upon to decide whether they will submit to the law of force, or the law of the Constitution.

Figure 1. A schematic diagram of the experimental setup. The light source (laser) emits light through a lens and beam splitter. The beam splitter splits the light into two paths: one path goes through a polarizer and a lens to a photomultiplier tube (PMT), and the other path goes through a lens and beam splitter to a second PMT.
