1. INTRODUCTION

- 1.1** This submission to the Commission on the Limits of the Continental Shelf ('the Commission') is made by the Republic of Palau pursuant to paragraph 8 of Article 76 of the 1982 United Nations Convention on the Law of the Sea ('the Convention') in support of the establishment by Palau of the outer limits of the continental shelf that lie beyond 200 nautical miles (M) from the baselines from which the breadth of the territorial sea of Palau is measured (hereinafter referred to as 'the territorial sea baseline') in three regions:
- 1) The Southeast Area
 - 2) The West Area
 - 3) The North Area
- 1.2** The Republic of Palau is made up of a group of islands located in the Western Central Pacific, to the south of Japan, to the east of the Philippines, to the west of the Federated States of Micronesia and to the north of Indonesia. The Republic of Palau became an independent nation on 1 October 1994. Palau became a member of the United Nations on 15 December 1994, and ratified the Convention on 30 September 1996. Article 1, Section 1 of the Constitution of The Republic of Palau as amended states that the Republic of Palau "shall have jurisdiction and sovereignty over its territory which consists of all the islands... and the water areas extending to a two hundred (200) nautical miles exclusive economic zone..." Section 2 as amended extends this jurisdiction to the continental shelf in accordance with international law. Palau National Code, Title 27, Fishing, Section 141 defines the baselines and Section 144 establishes a 200 nautical mile exclusive fishing zone.
- 1.3** The area of continental shelf lying beyond 200M measured from the territorial sea baselines of Palau is referred to in this submission as the 'extended continental shelf'. Part of the submission by Palau concerns the area of extended continental shelf in respect of the bathymetric feature commonly known as the Palau-Kyushu Ridge which extends from south of Palau to many hundreds of kilometers to the north. The land mass of Palau sits atop the Palau-Kyushu Ridge. Palau's submission also includes claims to west, towards the Philippines, and to the southeast, towards Indonesia.
- 1.4** Under Article 4 of Annex II to the Convention, as supplemented by the decisions of the Eleventh and Eighteen Meetings of the States Parties to the Convention respectively regarding the ten-year period established by Article 4 of Annex II to the Convention (SPLOS/72) and (SPLOS/183), a coastal State for which the Convention entered into force before 13 May 1999 is required to submit particulars of the

outer limits of the continental shelf to the Commission, together with supporting scientific and technical data by 13 May 2009. This submission by Palau satisfies that requirement.

- 1.5 Palau has, for the purposes of preparing this submission, applied the relevant provisions of Article 76 of the Convention, the relevant provisions of the Rules of Procedure and the recommendations contained in the Scientific and Technical Guidelines of the Commission on the Limits of the Continental Shelf (CLCS/11) adopted by the Commission on 13 May 1999 (hereinafter referred to as ‘the Guidelines’).
- 1.6 In accordance with the specifications of the Commission set out in Annex III to the Rules of Procedure

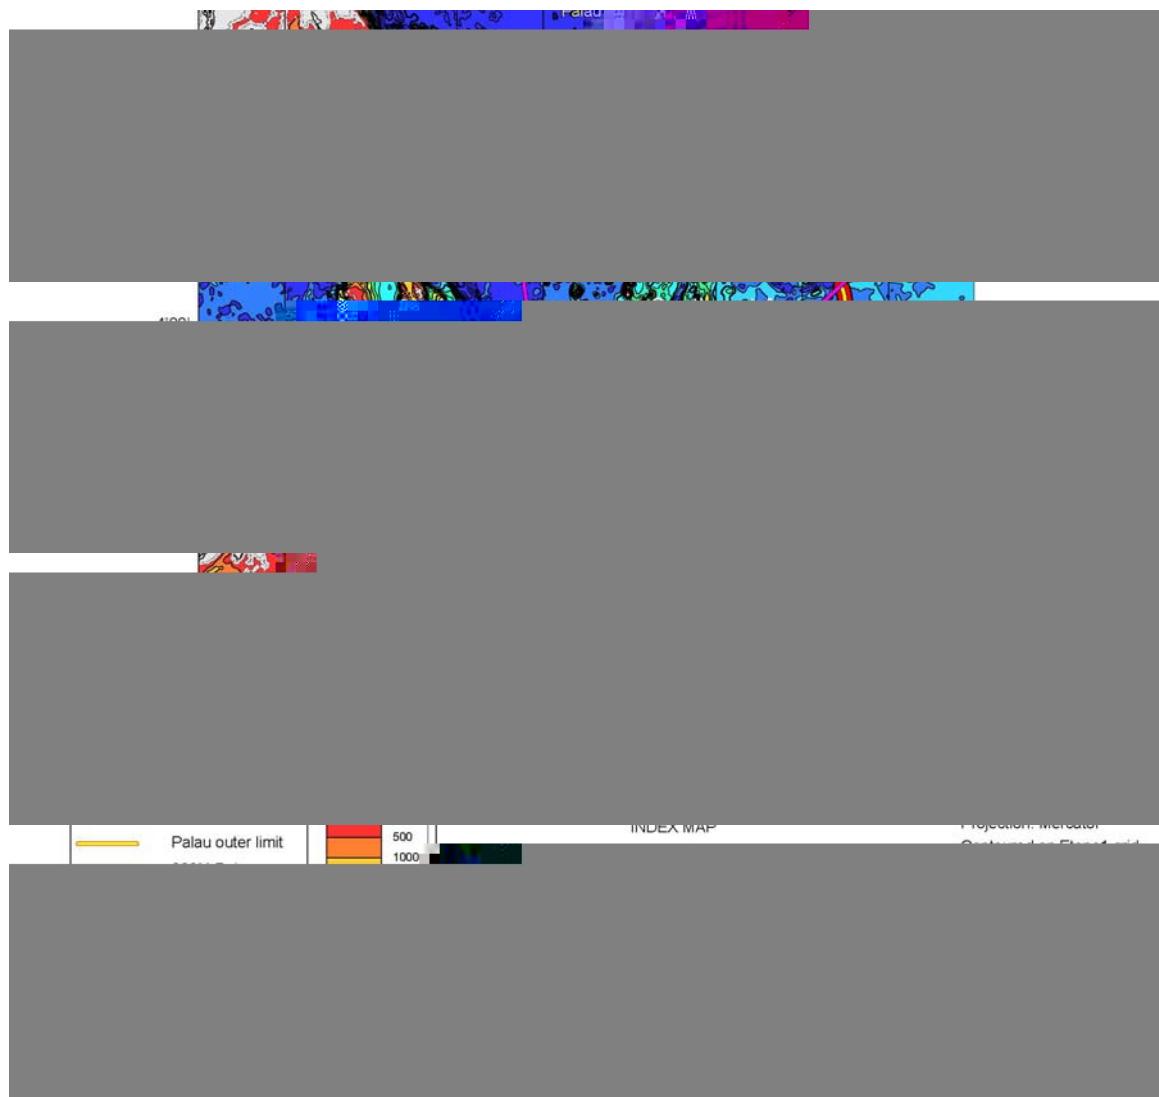

measured from the territorial sea baselines in the three regions as detailed in Section 6 of this Executive Summary which provides an outline of the three areas of extended continental shelf, including a depiction of their outer limits

- 2.5** Figure 1 (EX-FIG-01) provides an overview of the three areas of extended continental shelf with the location of the fixed points that define the outer limits of the relevant areas and the provisions of Article 76 invoked, which Palau is

Figure 1 (EX-FIG-01): Map depicting the outer limits of the Extended Continental Shelf of Palau. Also shown in **PALAU-MAP-01**.

3. MAPS AND COORDINATES

3.1 Four (4) maps at an appropriate scale are included in this Executive Summary in two forms, as Figures 1 to 4 within this document, and as separate larger maps (See: list of Maps and Figures).

- **Figure 1 (EX-FIG-01)** provides an overview of the three areas of extended continental shelf with the location of the fixed points that define the outer limits of the relevant area and the provisions of Article 76 invoked, which Palau is submitting to the Commission in this submission.;
- **Figure 2 (EX-FIG-02)** is an expanded view of Palau's Southeast Area claim;
- **Figure 3 (EX-FIG-03)** is an expanded view of Palau's West Area claim; and,
- **Figure 4 (EX-FIG-04)** is an expanded view of Palau's North Area claim.

3.2 A list of coordinates of the fixed points that define the outer limit of the extended continental shelf in this submission are supplied in Annex 1 (**EX-ANNEX 1**) of the Executive Summary, which lists the coordinates of the fixed points in decimal degrees. These fixed points define the outer limit of the three areas of extended continental shelf claimed by Palau;

- ſ The Southeast Area
- ſ The West Area
- ſ The North Area.

The provision of Article 76 invoked to define each fixed point, as well as the distance between adjacent points, is also indicated in Annex 1.

4. PROVISIONS OF ARTICLE 76 INVOKED

For the purposes of this submission, Palau invokes paragraphs 4(b) and 7 of Article 76 of the Convention to support the submission delineating the outer limits of the continental shelf beyond 200 M from the territorial sea baselines. Paragraphs 4 (a) (ii) and 5 of Article 76 are also invoked in respect of fixed points as outlined in Section 6 of this Executive Summary.

5. OUTSTANDING MARITIME DELIMITATIONS

- 5.1 In accordance with Paragraph 2 of Annex 1 to the Rules of Procedure, Palau wishes to inform the Commission that the areas of extended continental shelf in this submission are affected by outstanding delimitations with opposite or adjacent coastal States as detailed in this section.
- 5.2 The extension of Palau's continental shelf in the Southeast Area is limited to the south by the 200 M area under the jurisdiction of Indonesia. In the area beyond 200 M a potential overlap exists between the continental shelf of Palau and the continental shelf of Indonesia. Accordingly, this submission is submitted without prejudice to the question of the delimitation of this area pursuant to paragraph 10, Article 76 and paragraph 4(a) of Annex I to the Rules of Procedure.
- 5.3 The extension of Palau's continental shelf in the West Area is limited to the east by the 200 M area under the jurisdiction of the Philippines. In the area beyond 200 M a potential overlap exists between the continental shelf of Palau and the continental shelf of the Philippines. Accordingly, this submission is submitted without prejudice to the question of the delimitation of this area pursuant to paragraph 10, Article 76 and paragraph 4(a) of Annex I to the Rules of Procedure.
- 5.4 The extension of Palau's continental shelf in the North Area is limited to the south by the 200 M area under the jurisdiction of the Federated States of Micronesia. The Treaty of delimitation between the Republic of Palau and the Federated States of Micronesia, promulgated in 2006, defines the equidistance line between AreilTw[Ae7he rxWc.252s773 Tw[.io0)J-11se

6. COMMISSION MEMBERS WHO PROVIDED ADVICE DURING THE PREPARATION OF THIS SUBMISSION

The Republic of Palau was assisted in the preparation of its submission by Mr Philip Alexander Symonds, member of the Commission on the Limits of the Continental Shelf (2002-present).¹

7. REGION BY REGION DESCRIPTION OF THE OUTER LIMITS OF THE EXTENDED CONTINENTAL SHELF

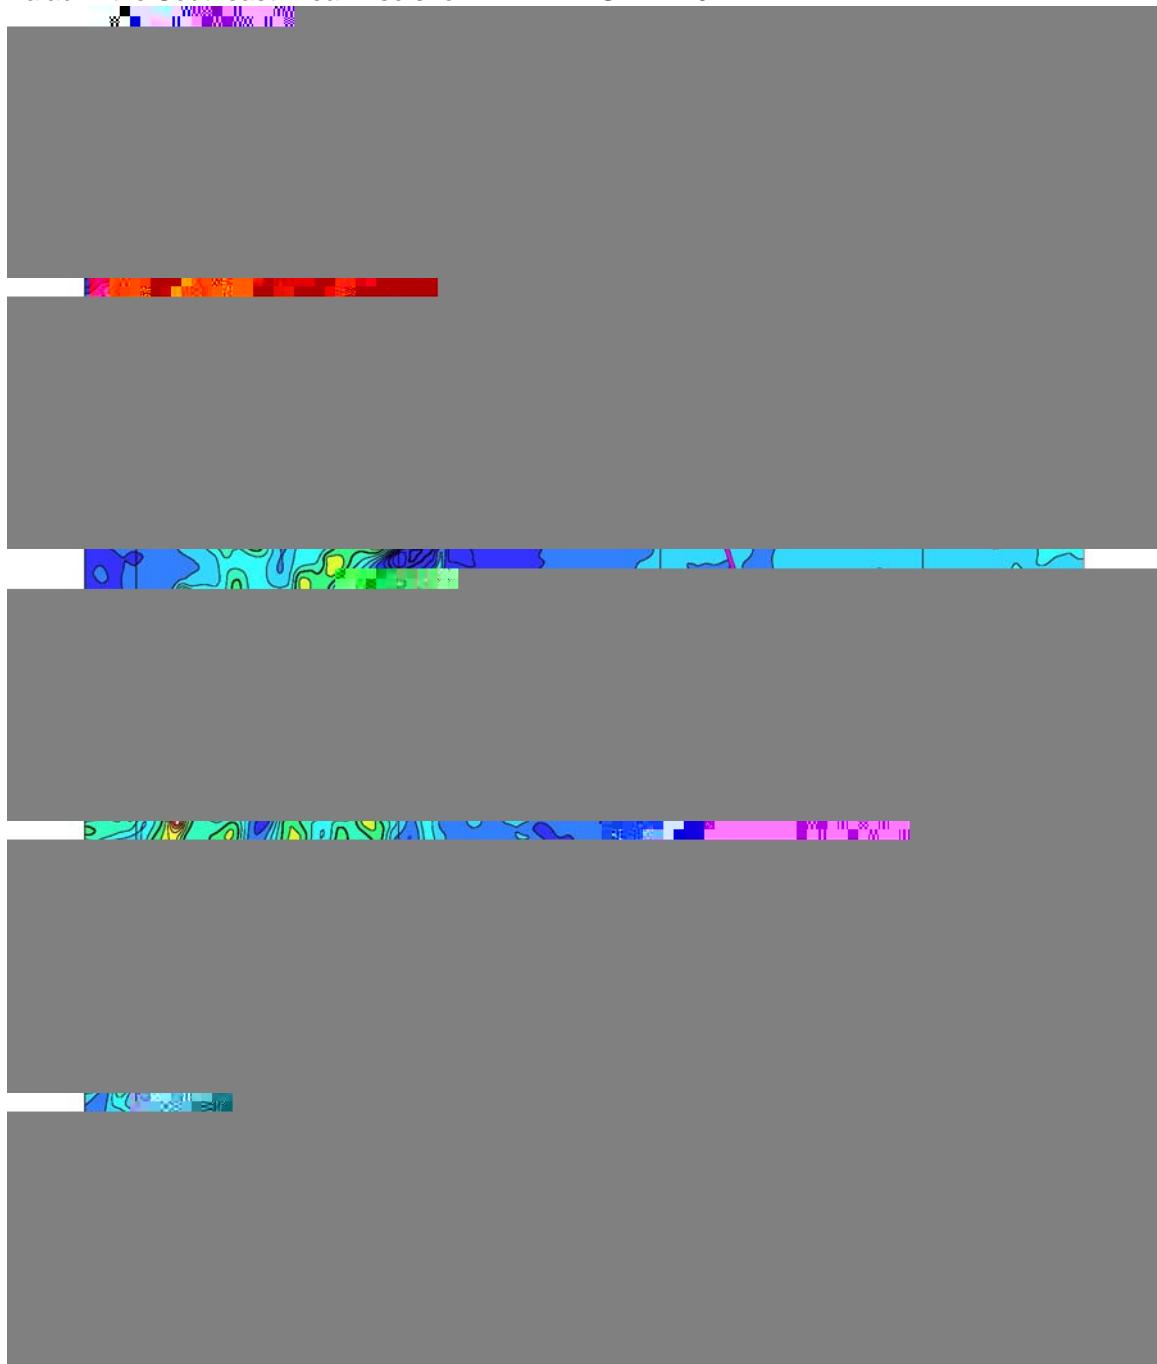

7.1 The Southeast Area (EX-FIG-02)

- 7.1.1** This section describes the outer limits of the extended continental shelf in the Southeast Area.
- 7.1.2** The continental margin in this area is located in the North Pacific Ocean, southeast of the main islands of Palau and east of the Southwest Islands of Palau. It extends along a continuous submerged elevation extending from the land mass of Palau and abuts the 200 M jurisdictional zones of FSM and Indonesia.
- 7.1.3** The outer limits of the extended continental shelf in this area are defined by straight baselines not exceeding 60 M in length that connect 199 fixed points. This area is defined by Palau ECS Points 001 to 199. These points can be grouped into the following types:
 - 197 are defined by arcs 60 M from the foot of the slope (Article 76, paragraph 4(a)(ii) of the Convention);
 - 1 point (ECS 001) is on the 200 M EEZ of Palau

¹ Palau would like to recognize the training and support received from Geoscience Australia, University of Sydney, UNEP Shelf Programme, and SOPAC, together with the following individuals: Dr. Elaine Baker, UNEP Shelf Programme/University of Sydney; Mr. Yannick Beaudoin, UNEP Shelf Programme/GRID-Arendal; Dr Rosemary Rayfuse, University of New South Wales; Mr. Joshua Brien, Legal Adviser,

Figure 2 (EX-FIG-02): Map depicting the outer limits of the Extended Continental Shelf of Palau in the Southeast Area. Also shown in **PALAU-MAP-02**.

7.2 The West Area (EX-FIG-03)

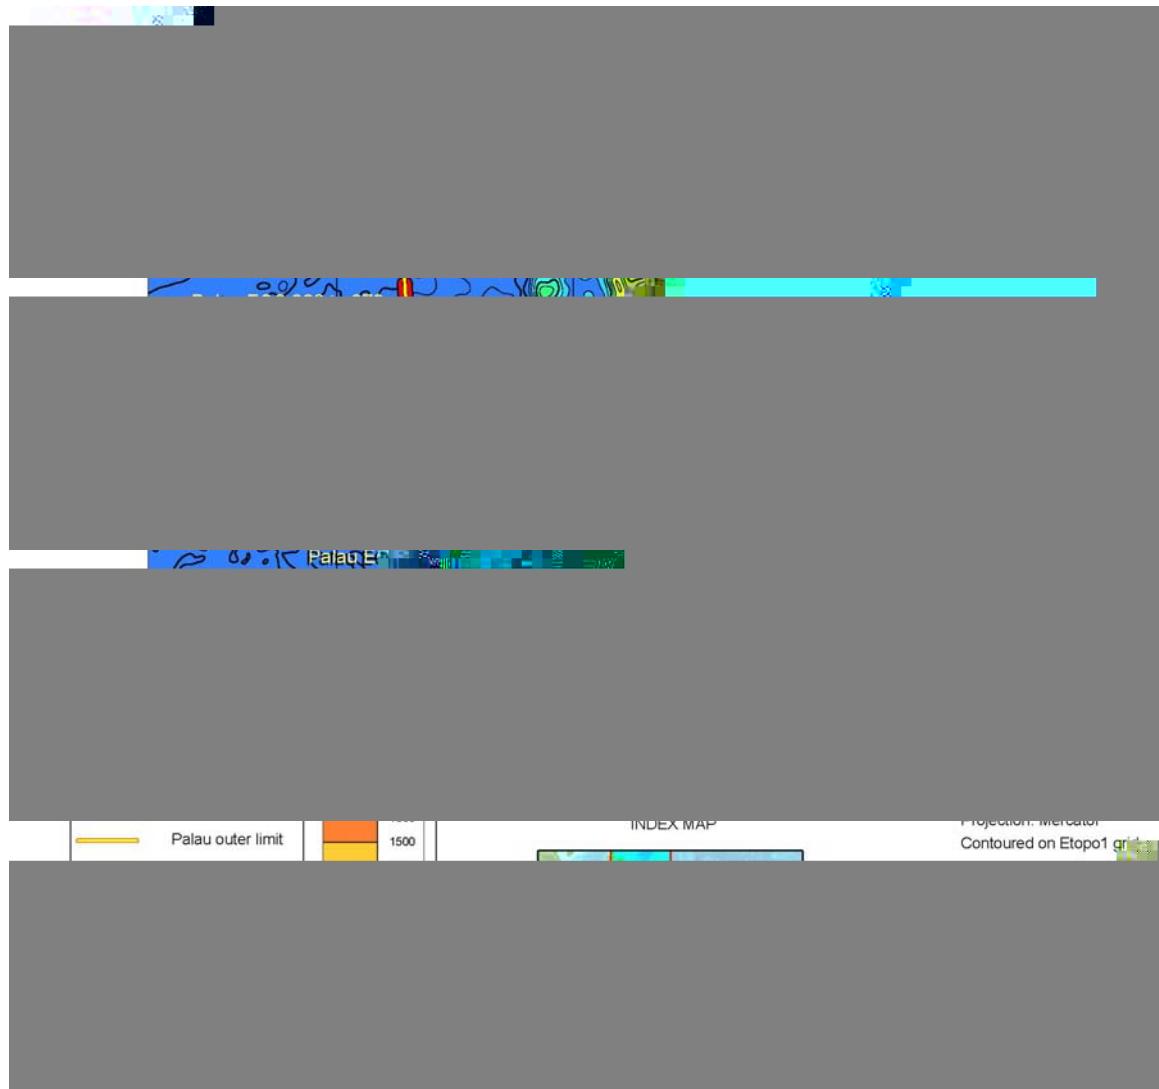

- 7.2.1** This section describes the outer limits of the extended continental shelf in the West Area.
- 7.2.2** The continental margin in this area is located in the Philippine Basin, west of the main islands of Palau. It extends along a continuous submerged elevation in a westerly direction from the land mass of Palau and abuts the 200 M jurisdictional zone of the Philippines.
- 7.2.3** The outer limits of the extended continental shelf in this area are defined by straight baselines not exceeding 60 M in length that connect 130 fixed points. This area is defined by Palau ECS Points 200 to 329. These points can be grouped into the following types:
- 128 are defined by arcs 60 M from the foot of the slope (Article 76, paragraph 4(a)(ii) of the Convention);
 - 1 point (ECS 200) is on the 200 M EEZ of Palau;
 - 1 point (ECS 329), where the outer limit of the extended continental shelf intersects the line 200 M from the territorial sea baseline of the Philippines.
- 7.2.4** The list of coordinates of these fixed points in this area is provided in Annex 1 of the Executive Summary.
- 7.2.5** EX-FIG-03 shows the outer limits of the extended continental shelf and relevant information for this area.

Figure 3 (EX-FIG-03): Map depicting the outer limit of the Extended Continental Shelf of Palau in the West Area. Also shown in

Figure 4 (EX-FIG-04): Map depicting the outer limit of the Extended Continental Shelf of Palau in the North Area. Also shown in **PALAU-MAP-04**.

8. NOTE OF AUTHENTICATION

All maps, figures, charts and databases forming parts of this submission were prepared by the Palau Automated Land and Resource Information System (PALARIS) Office, Ministry of Resources and Development of the Republic of Palau. All coordinates used in this submission and on the charts are expressed in north latitude and east longitude units of the World Geodetic System 84 (WGS84). The Ministry of State and Ministry of Justice participated in the preparation of the document.

Listing of Figures and Maps

- EX-Fig-01 A map of the outer limit of Palau's extended continental shelf claim. Page 6.
- EX-Fig-02 A map of the outer limit of the Southeast Area of Palau's extended continental shelf claim. Page 11.
- EX-Fig-03 A map of the outer limit of the West Area of Palau's extended continental shelf claim. Page 13.
- EX-Fig-04 A map of the outer limit of the North Area of Palau's extended continental shelf claim. Page 15.
- PALAU-MAP-01 A map of the outer limit of Palau's extended continental shelf claim.
- PALAU-MAP-02 A map of the outer limit of the Southeast Area of Palau's extended continental shelf claim.
- PALAU-MAP-03 A map of the outer limit of the West Area of Palau's extended continental shelf claim.
- PALAU-MAP-04 A map of the outer limit of the North Area of Palau's extended continental shelf claim.
