

Liberia's Position at the 5th Session of the Intergovernmental
Conference (IGC-5) on the Conservation and Sustainable Use of
Marine Biodiversity of Areas Beyond National Jurisdiction (BBNJ)
(August 15—26, 2022)

Madam President
Distinguished Delegates

1. On behalf of the government and people of the Republic of Liberia, we are pleased to present this statement representing the official position of the government at these ongoing deliberations for the adoption of a treaty on the high sea;
2. We will take this opportunity on behalf of Liberia to thank you, Madam President and congratulate you and the facilitators, for the work done in getting us to this stage of fruitful discussions.
3. As we engaged and participated in these proceedings through informal engagements, small group discussions, President's consultations, and plenary, our appreciations of what is at stake as the global community seeks to fill the gap in the governance of marine biodiversity in areas beyond national jurisdiction has significantly increased, consequently leading to more concerns and questions for which we continue to seek answers;
4. More scientific information continues to reveal not only the richness and imminent economic, commercial assets of the high sea but also its interrelated social, economic, cultural and human health impacts, we are keenly mindful of the implications of the decision that would be reached here for current and future generations;

The Liberian Delegation has therefore reached a decision to pursue further consultations because of the following reasons:

6. The proposed agreement may have unresolved concerns for areas within the Liberia's biodiversity and fisheries resources, the protection of its Exclusive Economic Zone, the protection of its Maritime program and hydra-carbon resources; which we believe further consultations is extremely important at this stage

7. Considering that the geographical scope, application and general provisions of the Agreement may have implications on Liberia, we need more time to
