Shelf concerning the Ontong Java Plateau by the

ADDENDUM TO THE EXECUTIVE SUMMARY

1982 United Nations Convention on the Law of the Sea

1 fixed point (OJP-ECS-005) is located where the outer limit of the extended continental shelf intersects the 200 M line measured from the territorial sea baseline of Kiribati;

2 fixed points (OJP-ECS-171 and OJP-ECS-172) are located where the outer limit of the extended continental shelf intersects the 200 M line measured from the territorial sea baseline of Tuvalu; and,

1 fixed point (OJP-ECS-203) is located on the 200 M line measured from the territorial sea baseline of the Solomon Islands.

6-6 Each successive pair of fixed points comprising the outer limit line of the extended continental shelf in the Ontong Java Plateau region is connected by a straight line not exceeding 60 M in length in accordance with paragraph 7 of Article 76.

6-7 In addition, that part of the outer limit of the continental shelf lying to the southeast of fixed point OJP-ECS-004 and connecting this point to fixed point OJP-ECS-005, is defined by the 200 M line constructed from the Nauru and Kiribati territorial sea baselines. Similarly, that part of the outer limit of the continental shelf lying to the south of fixed point OJP-ECS-171 and connecting this point to fixed point OJP-ECS-172 is defined by the 200 M line constructed from the Tuvalu territorial sea baselines.

NEW DEFINITION IN PARAGRAPH 9-5

The following definition is inserted into paragraph 9-5:

2500m + 100M	2500m isobath plus 100 M depth constraint point (Article 76, para. 5).
