

**Statement of the representative of the Permanent Mission of Ukraine
at the 46th Session of the Commission on Population and Development
(New York, 22 April, 2013)**

The Ukrainian delegation has an honour to address the session and to thank the Secretary General and the Commission for the report that should direct us to address the challenges of migration and development.

We fully support the objectives set out in the International Conference on Population and Development Programme of Action as well as welcome the second High Level Dialogue on International Migration and Development to be

NGOs are engaged in demographic and migration studies at the international and local levels. The Ukrainian governmental and public research institutions

dynamics within the country, as well as studying its impact on national demography, gender arrangements in the family, community and society.

It was estimated that current internal migration situation in Ukraine is stable; however it tends to keep the trends of the significant volumes of
