DISAGGREGATION

Data on collective living quarters are limited and usually not disaggregated by specific types of living quarters. Where possible, given the available data, disaggregated by sex and broad age group (65 years or over, 65 to 79 years and 80 years or over).

DATA SOURCES

Two types of sources of data on the collective living quarters of older persons are reflected in this database:

1. IPUMS-International

Minnesota Population Center. Integrated Public Use Microdata Series, International: Version 7.3 [dataset]. Minneapolis, MN: IPUMS, 2020.
