current 75, and we have realized ahead of schedule the MDG target on under-five mortality.

Compared with 20 years ago, China's population and economic and social development have undergone tremendous changes and the relations between economic and social development and the population factor have become ever closer. In view of this, the Chinese government will continue to implement the spirit and principles of the ICPD Programme of Action, acquire a deep understanding of the situation, dynamics and characteristics of our current population development, and maintain an comprehensive approach in decision-making on population and development. We will give full play to the role of various sectors of the society, especially social organizations. We will continue to follow our

As we speak, the Ebola outbreak in West Africa is endangering people's health. The Chinese government has dispatched 174 medical workers altogether to support and take part in efforts to control the spread of the epidemic and there are still 92 Chinese medical workers on the ground right now. Till September 13, my government has provided to African countries 234 million RMB in assistance to help them respond to the Ebola outbreak. The Chinese government and people will continue to

West Africa in their fight against the Ebola epidemic

Mr. President,

To effectively implement the follow-up to the ICPD Programme of Action beyond 2014 I would like to put forward the following proposals:

Fourthly we should work together to include the issue of population

The Chinese government will, as always, promote international
