

Paris Agreement on Climate Change;

Sendai Framework on Disaster Risk Reduction, the Addis Ababa Action Agenda, and the undertakings in alignment with these frameworks as well. Such frameworks include the outcome document of this meeting and its corresponding Global Compact would be Agendas that are referenced throughout the document and ask that implementation of the We would like to bring attention to the main relevant frameworks, apart from the 2030

development as an appropriate basis for reporting on the progress made economic, social, and environmental goals of the High Level Political Declaration and the Sustainable Development Goals. We welcome this dedication to ensure that such commitments

The zero draft for this declaration clearly asks for a systematic review and follow-up of the draft.

are our views on the zero addressed and improved. We welcome the High-Level have clearly stated that the situation for displaced populations needs to be urgently ment. In all of these processes, children and youth

related to the 2030 Agendas, it

In addition, we would like Major Groups and other Stakeholders, which as per GA Resolution 67/290 includes migrants and families, to be given the opportunity to participate in the follow-up and review of the declaration, and would suggest for their inclusion in line with established modalities from the HLPF. We especially see the need for the inclusion of refugees, stateless people and migrants and families to be included in the follow-up and review.

The process of
