

**TOWARDS A GLOBAL COMPACT FOR SAFE, ORDERLY AND REGULAR MIGRATION**

**1. Introduction**

- 1.1 We commit to launch a process of intergovernmental negotiations leading to the adoption of a Global Compact for Safe, Orderly and Regular Migration.
- 1.2 This Global Compact would set out a range of principles and understandings among UN Member States regarding international migration in all its dimensions. It would make an important contribution to global governance on international migration. It would present a framework for comprehensive international cooperation on migrants and human mobility. It would deal with the humanitarian, developmental, human rights-related and other aspects of migration and would be rooted in the 2030 Agenda.

**2. Content**

- 2.1 Elements for the Global Compact would include the following:
  - International migration as a multidimensional reality of major relevance for the development of countries of origin, transit and destination (as recognized in the 2030 Agenda).

- A framework for greater international cooperation to improve migration governance.
- Data on international migration.

### 3. *The way forward*

- 3.1 The Global Compact would be elaborated through a process of intergovernmental negotiations. This process, which will begin in the coming months, will culminate in an intergovernmental conference on international migration in 2018 at which the Global Compact would be adopted.
- 3.2 The President of the General Assembly is invited to make arrangements for the determination of the modalities, timeline, possible preparatory conferences and other practicalities relating to the intergovernmental negotiations, including the integration of Geneva-based migration expertise.
- 3.3 As the Third High-Level Dialogue on International Migration and Development is to be held in New York “no later than 2019,” a role should be envisaged for the High-Level Dialogue in the process.
- 3.4 The UN Secretariat and the International Organization for Migration would provide support for the negotiations. The Global Forum for Migration and Development and the Global Migration Group would also make contributions, as would the Special Representative of the Secretary-General for International Migration and the UN High Commissioner for Refugees, with respect to the interface between migration and refugee issues.
- 3.5 Regional consultations in support of the negotiations would be desirable.
- 3.6 Civil society, the private sector, diaspora communities and migrants themselves would contribute to the process for the preparation of the Global Compact.
