<sup>th</sup> session on 9 -11 April 2013 and during the high-level segment, held a panel discussion on "The role of innovation in creating a dynamic and competitive economy" as a contribution to the above-mentioned Annual Ministerial Review.

## II. Chair's summary of discussions<sup>1</sup>

**Keynote speech: Mr. Néstor Osorio, President of the Economic and Social Council**, underlined the importance of innovation to address the interconnected economic, environmental and social dimensions of sustainable development. Science, technology and innovation were identified as key instruments to advance the vision of economic growth contained in the Rio+20 outcome document. The 2013 Annual Ministerial Review of the Economic and Social Council will focus on how to harness the power of science, technology and innovation gustainable development and the potential of culture for promoting sustainable development and the

innovation in services and design, and public-sector innovation. A narrow view of innovation that emphasizes high technologies misses the opportunities present in other areas.
