Participation by member organizations in the survey, which was completed in October 2018, has been excellent. In particular, this new report includes an additional six United Nations system entities (CTBTO, ICC, UNCDF, UNFCCC, UNRISD and UNSSC) as of 2017.

Peacekeeping Operations
This reflects the activities of the Department of Peacekeeping operations and any other expenses incurred in support of these activities.

Technical Cooperation
This reflects activities undertaken by UN system agencies which may be undertaken at the country level but are not defined as development assistance. For example, organizations undertake training, project management and other technical activities which cannot be directly linked to a national development plan.

Normative, Treaty-related or Knowledge creation activities
This category reflects a wide range of activities not considered to fit into the descriptions above. UN organizations may establish standards (i.e normative behaviour) which may or may not be mandatory or binding on governments / Member States. They may also undertake programmes of work as a result of International agreements and Treaties. Finally, most agencies undertake a wide range of activities such as establishing policies and performing research with the goal of enhancing or creating "knowledge".
