

# Entrepreneurship and the Role of Government

## Introduction

### Entrepreneurship

#### Definition of Entrepreneurship

Entrepreneurship is the process of identifying and creating new opportunities for growth and innovation.

1/1/21

### Entrepreneurship

Entrepreneurship is the process of identifying and creating new opportunities for growth and innovation. It involves the identification of market needs, the development of a business plan, and the implementation of that plan. Entrepreneurs are individuals who take on the risk of starting a new business and are responsible for its success or failure.
