

Statement by

112: “Measures to eliminate international terrorism”

Sixth Committee

New York, 3 October 2022

Mr. Chair,

At the outset, I would like to congratulate you and other Members of the bureau on your deserved election.

I would also like to align myself with the statements delivered on behalf of the Non-Aligned Movement as well as the OIC and would like to deliver the following in my national capacity.

The Islamic Republic of Iran expresses its sorrow and strongly condemns the recent terrorist attack in Afghanistan that targeted a number of young student girls in Kabul.

Mr. Chair,

It has been nearly half a century since the Item on “Measures to eliminate international terrorism” was included on the agenda of the General Assembly. Throughout decades, the United Nations, in particular this Committee, has unwaveringly condemned terrorism in all its forms and manifestations. Nevertheless, despite the promising progress that we have all made in combating this menace, the fight against terrorism still suffers from the politicization and double standards of few as the international community yet again
