

Mr. Chair,

The African Union is a strong supporter of the United Nations and its efforts to address the challenges of climate change. We are committed to working with the international community to reduce greenhouse gas emissions and to build resilience to the impacts of climate change. We are also committed to promoting sustainable development and to protecting the environment.

Mr. Chair,

2. The impact of climate change is a global issue that is affecting all regions. In the last few years, extreme weather events have become more frequent and more intense. We are seeing a significant increase in the number of people affected by climate change, particularly in the most vulnerable regions. We are also seeing a significant increase in the number of people displaced by climate change, particularly in the most vulnerable regions. We are also seeing a significant increase in the number of people affected by climate change, particularly in the most vulnerable regions.

The world is being affected by climate change. We are seeing a significant increase in the number of people affected by climate change, particularly in the most vulnerable regions. We are also seeing a significant increase in the number of people displaced by climate change, particularly in the most vulnerable regions. We are also seeing a significant increase in the number of people affected by climate change, particularly in the most vulnerable regions.

2. Heat. The Caribbean is a region that is particularly vulnerable to the impacts of climate change. We are seeing a significant increase in the number of people affected by climate change, particularly in the most vulnerable regions. We are also seeing a significant increase in the number of people displaced by climate change, particularly in the most vulnerable regions.

3. We commendate with the international community in addressing the challenges of climate change. We are committed to working with the international community to reduce greenhouse gas emissions and to build resilience to the impacts of climate change. We are also committed to promoting sustainable development and to protecting the environment.
