provisions of paragraph 136 of the Programme for the Further Implementation of Agenda 21:

The Commission, immediately following the closure of a regular session, will hold the first meeting of its subsequent regular session for the sole purpose of electing the new Chair and other members of the Bureau in accordance with rule 15 of the rules of procedure of the functional commissions of the Council.

On 14 May 2010, the Commission elected László Borbély (Romania) as Chair and Javier Arias (Panama) and Andrew Golezdzinowski (Australia) as Vice-Chairs of its nineteenth session. At the same meeting, the Commission decided to postpone the election of the other members of the Bureau to a later date.

The membership of the Commission for its nineteenth session is contained in annex II.

2. Adoption of the agenda and organization of work

Rule 7 of the rules of procedure of the functional commissions of the Economic and Social Council provides that the Commission shall, at the beginning of each session, adopt the agenda for the session on the basis of the provisional agenda.

In its decision 2010/234, the Council took note of the report of the Commission on its eighteenth session and approved the provisional agenda for its nineteenth session.

3. Thematic cluster for the implementation cycle 2010-2011 — policy session:

- (a) Transport**
- (b) Chemicals**
- (c) Waste management**
- (d) Mining**
- (e) A 10-year framework of programmes on sustainable consumption and production patterns.**

In its resolution 2003/61, the Economic and Social Council decided that the organization of work of the Commission should contribute to advancing the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Plan of Implementation of the World Summit on Sustainable Development (Johannesburg Plan of Implementation) at all levels. In the same resolution, the Council also decided that in order to fulfil its mandate, the work of

The Council also decided that the implementation of the programme of work would be guided, *inter alia*, by the following considerations:

(a) The review and evaluation of the implementation of actions, commitments and targets would be dealt with in accordance with the relevant provisions of Agenda 21, the Programme for the Further Implementation of Agenda 21, the Johannesburg Plan of Implementation and the decisions of the Commission. The thematic clusters should be addressed in an integrated manner, taking into account the economic, social and environmental dimensions of sustainable development. Recognizing that all the issues identified in Agenda 21 and the Johannesburg Plan of Implementation are important, the implementation process should cover all those issues equally, and the selection of some issues during a given cycle does not therefore diminish the importance of the commitments undertaken with respect to the issues to be considered during future cycles;

(b) Means of implementation, as identified in Agenda 21 and chapter X of the Johannesburg Plan of Implementation, should be addressed in every cycle and for every relevant issue, action and commitment;

(c) Other cross-cutting issues, as referred to in the annex to Council resolution 2003/61, should also be addressed in every cycle;

(d) African and other regional initiatives, as well as initiatives on small island developing States and least developed countries, would be considered in every cycle with respect to all relevant issues, actions and targets;

(e) The Commission should focus on those issues where it could add value to intergovernmental deliberations on cross-sectoral and sectoral issues, in accordance with the provisions of General Assembly resolution 47/191, in particular its paragraphs 3 (h), 21 and 23, as well as paragraph 139 (f) of the Johannesburg Plan of Implementation.
