Experiences of Senegal in enhancing the role of NFPs.

All sessions were helpful

All sessions were important

Yes, Session III is informative and useful as we could share our experiences and draw lesson from other LDCs in forms of accelerating IPoA implementation and monitoring.

Very satisfying, for all the sessions.

Monitoring of the implementation of the IPoA which allow us to follow the evolution of the implementation of the IPoA, SDGs in relation to national planning.

Impact of the meeting on their knowledge

We asked the participants if the meeting increased their knowledge on how to improve the

Select individual responses are reflected below:

It was very useful to allow us to do the liaison between the different Agenda. Our wish is that the decisions made by the international community for financing the development of LDCs come to be.

Yes, the sessions were helpful

Yes quite useful

Yes, Example of Ethiopia. How they take into account political ambitions into the national development plans.

Senegal is an example to follow, not copy but adapt to national context.

Yes, Lesotho, Senegal and the intervention of certain NFPs specially Comoros and Senegal.

Yes, Example of Bangladesh, Ethiopia and Senegal were very useful.

III. Suggestions for improvement in relation to the topics, presentations and opportunities for discussion

Participants suggested that more experience sharing should be done. NFPs should be informed in advance if they are making a presentation in order to be better prepared for their presentation. The time allotted for discussions and national presentations should be longer as some presenters and speakers were rush to finish. It was also mentioned that a network for NFPs should be implemented and the USG should visit the LDCs more.

Select individual responses stated below:

Case for those countries who did to manage and fulfil their obligation and why.

Put in place a network of NFPs

Did you find the presentations on financing the IPoA and SDGs in LDCs useful for your national context?

Did you find the intervention from other countries useful? Please provide an example.

Please provide one or two suggestions for improvement in relation to the topics, presentations and opportunities for discussion.
