Example of good practices: the informal interactive dialogue of the Security Council with the Commission held in July 2020 provided Member States with a space in which to explore practical ways for Council and Commission to work together to address the implications of COVID-19 on peacebuilding and sustaining peace in conflict-affected countries. The advice to the Security Council ahead of the mandate renewal of the United Nations Integrated Peacebuilding Office in Guinea-Bissau and of the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic, the informal process led by the Commission in preparation for the 2020 review and its advice to the General Assembly and the Security Council and the Commission's joint event with the Economic and Social Council in November
