## Guiding principles on foreign terrorist fghters Introduction

Foreign terrorist ghters pose an acute and growing threat to international peace and security. Their activities can increase the intensity, duration, intractability and unpredictability of con icts and pose a serious threat to their States of origin, the States through which they transit and the States to which they travel, as well as to States neighbouring zones of armed con ict in which those ghters are

Accordingly, on 28 July 2015, the Committee held a special meeting on stemming the ow of foreign terrorist ghters, which was preceded by a series of technical sessions organized by the Coun ter-Terrorism Committee Executive Directorate. The meeting and technical sessions were hosted by the Government of Spain in Madrid and were attended by approximately 400 participants from Mem ber States representing every region of the world, including those most a ected by the threat of for eign terrorist ghters, relevant international and regional organizations, academia and civil society. In accordance with resolution 2178 (2014)he participants discussed the principal gaps in the capacities of Member States to implement resolutions 1373 (20an)d 1624 (2005) that may hinder the abilities of Member States to stem the ow of foreign terrorist ghters.

The participants also shared e ective practices and approaches to stemming the ow of foreign terrorist ghters, focusing on: (a) the detection of, intervention against and prevention of the incite ment, recruitment and facilitation of foreign terrorist ghters; (b) the prevention of travel by foreign terrorist ghters; and (c) criminalization, prosecution, including prosecution strategies for returnees, international cooperation and the rehabilitation and reintegration of returnees.

The main outcomes of the special meeting and technical sessions, including speci c e ective practices and approaches, have been incorporated into the present set of guiding principles in-an ef fort to assist Member States in their e orts to stem the ow of foreign terrorist ghters. The principles are intended to complement the other materials prepared by the Executive Directorate to help States to strengthen their implementation of resolutions 1373 (2001)624 (2005) and 2178 (2014)

The participants rea rmed the need for States to ensure that all measures taken to counter the threat of foreign terrorist ghters were fully compliant with their obligations under international law, in particular international human rights law, international refugee law and international humanitarian law, and noted that e orts to do so involved numerous and signi cant challenges.

In order to develop an dhe (i)- otorate tan6-1.6ercre99 (21.3 (.9 (l)4.4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (r t)4 (i)0.5 (( (i (c)- d-r)-28 (e f)-7.4)-1.6 (( (i (c)- d-r

I. Detection of, intervention against and prevention of the incitement, recruitment and facilitation of foreign terrorist fghters

The discussions on this topic focused on preventing the travel of aspiring foreign terrorist-ght ers through the creation of strategic partnerships between governmental and non-governmental

Guiding Principle 2  Because local stakehol foreign terrorist ghter p	Iders often have the bophenomenon, States s	est understanding of should create space f	the nature and so for civil society an	urces of the d develop

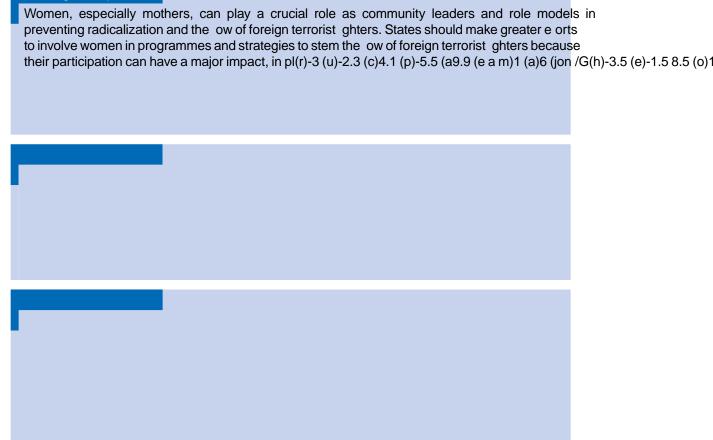

## B. Community engagement and empowerment of local communities and civil society

Terrorism will not be defeated by military force, law-enforcement measures and intelligence op erations alone. There is also a need to address the conditions conducive to the spread of terrorism, in accordance with pillar I of the United Nations Global Counter-Terrorism Strategy. In this respect, participants in the special meeting welcomed the provisions of resolution 2178 (20th) ouraging Member States to engage with relevant local communities and non-governmental actors in devel oping strategies to counter the violent extremist narratives that can incite terrorist acts, including by empowering youth, families, women, religious, cultural and education leaders and all other concerned civil society groups. Greater e orts in this area can lead to increased success in stemming the ow of foreign terrorist ghters at the community level.

#### Guiding Principle 7

E ective community engagement to stem the ow of foreign terrorist ghters requires action in a number of di erent elds. States should consider developing comprehensive strategies to counter and prevent violent extremism that include signi cant roles for youth, families, women, religious, cultural and educational leaders and other concerned civil society groups. Independent actors give actions to counter violent extremism a level of credibility and e ectiveness that Governments generally cannot achieve alone. However, care should be exercised in delineating the respective roles of Governments and civil society actors.

#### Guiding Principle 8

# C. Community-policing and Internet-related law-enforcement initiatives

Law-enforcement measures are essential to stemming the ow of foreign terrorist ghters. There is therefore a need to promote dialogue through methods that include engagement with communities and a commitment to transparency. One innovative approach adopted by an increasing number of States is the use of community-policing techniques. States should also pay close attention to com

S/2015/939

II. Prevention of travel by foreign terrorist fghters, including through operational measures, the use of advance passenger information and measures to strengthen border security

In its resolution 2178 (2014) he Council rea rmed that all States shall prevent the movement of

#### Transmitting analysis and information on foreign terrorist f ghters nationally and internationally

Information and related analyses on existing and potential foreign terrorist ghters should be shared across the security hierarchy nationally and with competent border authorities internationally through coordination and mechanisms for information exchange.

#### **Guiding Principle 17**

In order to ensure the availability of relevant information to front-line o cers nationally and internationally, and thus enhance e orts to detect and prevent the cross-border movement of foreign terrorist ghters, States should consider:

- (a) Enacting legislation, if necessary, and implementing procedures to gather traveller information and use known traveller information, including advance passenger information, complemented by passenger name record data, if appropriate, to inform decisions about potential travel by foreign terrorist ghters;
- (b) Ensure that procedures are in place to make certain that information on known or suspected foreign terrorist ghters is transmitted to front-line border o cials for their action prior to the departure or arrival of the traveller;
- (c) Establishing mechanisms for the provision of feedback on the validity and usability of the information, as well as on the results achieved;
- (d) Encouraging the bilateral and multilateral sharing of information and analysis related to for eign terrorist ghters;
- (e) Expanding access to, and the utilization of, the global information-sharing tools and resources of INTERPOL among the national law-enforcement, immigration and border security authorities of member countries.

4. Efective utilization of information related to foreign terrorist fighters at border points

5.

#### B. Practical measures to strengthen the overall security of borders

#### 1. Coordinated border management

Many States have turned to coordinated border management to e ectively manage their-bor ders. Participants in the special meeting noted the need for cooperation and coordination by all

#### 2. Addressing spaces between of cial border crossings

Spaces between o cial border crossings are di cult to control because they often include long and porous borders, open spaces and di cult terrain. They therefore present risks and vulnerabilities for the potential crossing by foreign terrorist ghters.

#### **Guiding Principle 21**

In order to strengthen the overall security of their borders and thereby stem the ow of foreign terrorist ghters, States should consider:

- (a) Identifying the most vulnerable border stretches and implementing mitigation measures;
- (b) Establishing controls at vulnerable locations;
- (c) Establishing mobile border-processing units and/or roving patrols on the basis of risk assess ment and assessed needs, and supporting them with transportable screening systems such as the Mobile INTERPOL Network Database;
- (d) Extending areas of control adjacent to o cial border checkpoints;
- (e) Establishing, strengthening and acting upon bilateral agreements on cross-border matters;
- (f) Increasing cooperation, coordination and information exchange with neighbouring and other States;
- (g) Introducing appropriate legal measures to deter the unauthorized crossing of borders that are compliant with all relevant obligations under international law;
- (h) Making available adequate and trained human resources to conduct border operations;
- (i) Developing and deploying cost-e ective detection technologies and infrastructure, such as integrated xed towers and mobile technologies, as appropriate;

В

# C. Prosecution and rehabilitation strategies aimed at stemming the fow of foreign terrorist fighters

The employment of rigid prosecution policies and practices against foreign terrorist ghters can

# D. International judicial cooperation in stemming the fow of foreign terrorist fighters

There are numerous challenges associated with e ective international cooperation in stemming the ow of foreign terrorist ghters, including delays in the provision of mutual legal assistance, the rigidity of procedures and lack of capacity.

Guiding Principle 33
Member States should consider reviewing national mutual legal assistance laws and mechanisms and updating them as necessary in order to strengthen their e ectiveness, especially in the light of the substantial increase in the volume of requests for digital data. Member States, consistent with their national law and legal framework, should also consider establishing appropriate

# Addendum to the guiding principles on foreign terrorist fghters (2018)

#### I. Introduction

1. On 28 July 2015, the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism held a special meeting on stemming the ow of foreign terrorist ght ers. Held in Madrid and hosted by the Government of Spain, the special meeting and the accompany ing series of technical sessions organized by the Counter-Terrorism Committee Executive Directorate were attended by Member States of every region of the world, including those regions most a ected by the threat of foreign terrorist ghters. Representatives of international and regional organizations, academia and civil society also attended. In accordance with resolution 2178 (204#cicipants dis cussed principal gaps in the capacities of Member States to implement resolutions 1373 (and1) 1624 (2005)that might hinder States' abilities to stem the ow of foreign terrorist ghters. Pursuant to their discussions, participants identi ed a set of 35 guiding principles on foreign terrorist ghters (Madrid Guiding Principles) 2015/939a31 0 scTJ 0.002407 (i)5.12 (ps74.3 (9)-44.6t (rid1(e)-1.6 ( G /GS0 gs -0. (/)-56 (s

ghters; developing and implementing risk assessments on returning and relocating foreign terrorist ghters and their families; and prosecution, rehabilitation and reintegration e orts, consistent with applicable international law (ibid.).

7. The present addendum is intended to provide further guidance for an e ective response to the evolving foreign terrorist ghter phenomenon, focusing on measures to be taken in the areas of bor

13. Many of the additional guiding principles set forth in the present document build upon exist ing good practices, which Member States should also consider implementing, in particular those of the Executive Directorate, the O ce of the United Nations High Commissioner for Human Rights; the O ce of Counter-Terrorism; the United Nations O ce on Drugs and Crime (UNODC); United Nations University; the Financial Action Task Force and Task Force-style regional bodies; the International Air Transport Association; the Internatle regiitlr-TTatl2.70cspl bodies; thnternC.5 9.9 (s TJ 0- (g)2.3 (4)2 (a)66.6 ( 0- (g)2.3 (

17. Appropriate information concerning the identity of existing, suspected or potential foreign terrorist ghters, without resorting to pro ling based on any discriminator( d)4.d1orguo prhni0(t)5.7 (i)2.3 (t)10.1

#### Guiding Principle 36 a

In implementing their advance passenger information and passenger name record obligations, Member States should:

- (a) Ensure that national legislation clearly regulates the way in which States can collect, use, retain and transfer advance passenger information and passenger name record data, in accordance with ICAO standards and recommended practices and with domestic law and international obligations and in full respect for human rights and fundamental freedoms, including by be ing consistent with article 17 of the International Covenant on Civil and Political Rights;
- (b) Ensure the availability of adequate resources and, if possible, support any capacity-building e orts, to e ectively implement advance passenger information and passenger name record systems;
- (c) Obligate air carriers to transfer advance passenger information and passenger name record data to the relevant national authorities (single windows and passenger information units);
- (d) Establish and/or designate speci c entities responsible for the collection, storage, process ing and analysis of passenger name record data and advance passenger information received from air carriers (for example, through the establishment of passenger information units and capacity-building e orts). The passenger information units should compare passenger name record data and advance passenger information with data from relevant law enforcement databases and process them against predetermined criteria to identify persons that may

watch list or database,	Member States should:					

# C. Developing biometric systems and ensuring their responsible use

28. In its resolution 2396 (2017) the Security Council decided that States should develop and imple ment systems to collect biometric data, which could include ngerprints, photographs, facial recognition and other relevant identifying biometric data, in order to responsibly and properly identify ter

#### **Guiding Principle 38**

In implementing their obligations to collect, use and share biometric data in order to properly and responsibly identify terrorists, including foreign terrorist ghters, in compliance with domestic law and international human rights law, Member States should:

- (a) Counter the threat posed by the continual movement of suspected terrorists and foreign ter rorist ghters across international borders by comparing the biometrics of individuals enter ing, departing or seeking residence in their country with data from other national and interna tional biometric databases, including those of known and suspected foreign terrorist ghters;
- (b) Develop or increase their use of biometric systems in a responsible and proper manner in order to authenticate the identity of individuals and prevent them from presenting false-par ticulars or attempting to impersonate other people;
- (c) Ensure e ective maintenance of biometric databases and data-sharing protocols;
- (d) Adopt clear human rights-based frameworks for the use of biometric technology that include the use of procedural safeguards for and e ective oversight of its application, including by es tablishing appropriate oversight bodies, or expanding the remit of existing ones, to supervise the implementation of relevant legislation and the provision of e ective remedies in case of violations in this regard. Those e orts could be supplemented by a review process that in forms all national policy and decision-making regarding the use of biometrics for counter-ter rorism purposes;
- (e) Take into consideration speci c issues that may arise with respect to protecting and premot ing the rights of the child in the context of biometrics, including when children's biometric data is collected for child-protection purposes, and further considering putting in place-spe ci c and appropriate legal frameworks and safeguards;
- (f) Conduct regular risk assessments of the end-to-end processes of their biometric applications in order to mitigate current or emerging threats, such as identity theft, the deletion and replacement of data and deliberate damage;
- (g) Ensure that actions taken by the authorities as a result of biometric matches are considered in the context of international law, including international human rights obligations and the need for a fully informed and lawful response;
- (h) Ensure that the systems operating biometric data and the legal frameworks associated with their use allow for interoperability between other national and international biometric data bases, including INTERPOL;
- (i) Maximize the use of the INTERPOL biometric databases (face, ngerprints and DNA).

<sup>&</sup>lt;sup>a</sup> Executive Directorate, Technical Gui**p**e64.

eld of countering terrorist narratives should be based on the Charter of the United Nations, including with respect to the principles of sovereignty, territorial integrity and political independence of all States.

### Guiding Principle 39 a

In undertaking e orts to e ectively counter the ways that ISIL, Al-Qaida and associated individuals, groups, undertakings and entities use their narratives to incite and recruit others to commit terrorist acts, Member States should:

- (a) Collaborate in the pursuit of developing and implementing e ective strategies to counter-ter rorist narratives, in particular in relation to foreign terrorist ghters, in a manner compliant with their obligations under international law, including international human rights law, in ternational refugee law and international humanitarian law, as applicable, while safeguarding the rights to freedom of expression, peaceful assembly and association and the right to be free from arbitrary or unlawful interference with privacy;
- (b) Promote peaceful alternatives to the narratives espoused by foreign terrorist ghters, address underlying drivers and engage with a wide range of actors, including through the participa tion and leadership of young people and women, families, religious, cultural, education and local community leaders, other civil society actors, victims of terrorism, the media and private sector entities;
- (c) Tailor their counter-terrorism measures and programmes to the speci c circumstances of different contexts at all levels in order to increase their e ectiveness, aiming not only to rebut terrorists' messages, but also to amplify positive narratives, provide credible alternatives and address issues of concern to vulnerable audiences who are subject to terrorist narratives, both online and o ine;
- (d) Take into account the gender dimension and age sensitivities and address speci c concerns and vulnerabilities in their counter-narrative initiatives;
- (e) Consider facilitating counter-narrative measures and programmes, including by not only di

S/2018/1177

### B. Risk assessments and intervention programmes

38. In its resolution 2396 (2017) the Security Council called upon States to develop and implement risk assessment tools to identify individuals who demonstrate signs of radicalization to violence and to develop intervention programmes, including with a gender perspective, in compliance with applicable international and domestic law and without resorting to pro ling based on any discriminatory grounds prohibited by international law.

### **Guiding Principle 40**

In developing risk assessment tools to identify individuals who demonstrate signs of radicalization to violence and intervention programmes, Member States should:

- (a) Ensure that risk assessments do not lead to pro ling based on any discriminatory grounds prohibited by international law;
- (b) Develop intervention programmes, including with a gender perspective, as appropriate, to prevent such individuals from committing acts of terrorism, in compliance with applicable international and domestic law and without resorting to pro ling based on any discriminatory grounds prohibited by international law;
- (c) Consider ways to ensure that professionals involved in risk assessments have relevant exper tise and access to continuous training, development and reevaluation;
- (d) Put in place e ective oversight mechanisms to ensure the accountability of professionals in volved in risk assessments;
- (e) Consider developing or supporting mechanisms to evaluate risk assessment tools and intervention programmes;
- (f) Consider sharing relevant experiences and expertise with other States, regional organizations, multilateral forums and civil society organizations.

IV. Judicial measures and international cooperation

### Guiding Principle 43 a

In undertaking e orts to ensure that the responsible authorities have the capacity, expertise and authority to handle intelligence threat data on foreign terrorist ghters and other individual terrorists and information collected by investigative agencies, and in creating procedures to convert such data and information, where possible, into admissible evidence, where appropriate and subject to the arrangements of its legal system, Member States should:

- (a) Consider ensuring that the use of special investigative techniques by investigative agencies is e ectively supervised by judiciary and prosecution systems;
- (b) Put in place, where needed, special investigation and prosecution approaches that are gen der-sensitive and, for cases involving children, take into account their rights;
- (c) Use existing good practices and standard operating procedures, including those of INTERPOL, for forensic science procedures, in order to ensure the reliability of forensic evidence in court and promote public con dence;
- (d) Ensure e ective protection of witnesses.
- <sup>a</sup> See also guiding principle 25.

### Guiding Principle 44 a

In undertaking e orts to gather digital data and evidence in cases relating to terrorism and foreign terrorist ghters, Member States should:

- (a) Implement provisions on the expedited preservation of digital data as a stand-alone measure
  in their procedural legislation and establish a speci c legal regime for the search and seizure
  of digital data;
- (b) Consider encouraging private companies to establish round-the-clock mechanisms for coop eration with law enforcement and clear rules for the preservation of digital evidence and for emergency disclosure requests in accordance with applicable law;
- (c) Develop information and communications technology (ICT) and forensic capacities and ex pertise within criminal justice and law-enforcement agencies;
- (d) Use social media content relating to terrorism as digital evidence for investigation and prose cution, while respecting human rights and fundamental freedoms, and consistent with their obligations under domestic and applicable international la9 (a)2.3 (p)-5.5 (ac)4E(n r)-1.c032 Tw -1.4 -1.8 Td

#### Guiding Principle 47 a

In cases involving children, Member States should ensure that prosecution, rehabilitation and reintegration strategies:

- (a) Make the best interests of the child a primary consideration;
- (b) Are implemented in compliance with criminal legislation, taking into account the gravity of any crime that may have been committed, while considering the age of the child and recognizing that such child may also be a victim of terrorism;
- (c) Include access to health care, psychosocial support and education programmes that centrib ute to the well-being of children, and grant access to regular education whenever possible;
- (d) Are age- and gender-sensitive;
- (e) Enable the involvement of child-protection actors and the social sector, as well as their-e ec tive coordination with the justice sector.
- <sup>a</sup> See also guiding principles 30–32. See Executive Directorate, Technical Guide, p. 52, for a list of additional interna tional instruments, standards and good practices that provide guidance in this area.

# D. Addressing the risks of terrorist radicalization and recruitment in prisons and ensuring that prisons can serve to rehabilitate and reintegrate

46. In its resolution 2396 (2017) he Security Council acknowledged that prisons could serve as po tential incubators for radicalization to terrorism and terrorist recruitment and that proper assessment and monitoring of imprisoned foreign terrorist ghters, aimed at reducing opportunities for terrorists to attract new recruits, was therefore critical. In the same resolution, the Council recognized that pris ons could also serve to rehabilitate and reintegrate prisoners, where appropriate, and that Member States might need to continue to engage with o enders after their release from prison in order to prevent recidivism, in accordance with relevant international law and taking into consideration, where appropriate, the United Nations Standard Minnakntebe(i)-.5 (S)17.1 (t)-6.nd1oue tutelteet 12e(t)00-P(n)9.6(d)-2.3 (e)-1

### E. International cooperation

48.

## V. Protecting critical infrastructure, vulnerable or soft targets and tourism sites

49. In its resolution 2341 (2017) he Security Council called upon States to consider developing or fur ther improving their strategies for reducing risks to critical infrastructure from terrorist attacks, including by, inter alia, assessing and raising awareness of the relevant risks; taking preparedness measures, including implementing e ective responses to such attacks and promoting better interoperability in security and consequence management; and facilitating e ective interaction among all stakeholders involved.

50. In its resolution 2396 (2017) he Security Council stressed the need for States to develop, review or amend national risk and threat assessments to take into account soft targets, in order to develop ap propriate contingency and emergency-response plans for terrorist attacks. It also called upon States to establish or strengthen national, regional and international partnerships with p((Fble)-6.9 (I)2.4 (e)-1.5c)-4.3 (

### Guiding Principle 51 a

In their further e orts to protect critical infrastructure and soft targets from terrorist attacks, Member States, acting in cooperation with local authorities, should also consider:

- (a) Updating contingency planning, such as guidance, exercises and training for law enforce ment, other relevant ministries and industry actors, in order to keep pace with actual threats, re ne strategies and ensure that stakeholders adapt to evolving threats;
- (b) Putting in place national frameworks and mechanisms to support risk-based decision-making, information-sharing and public-private partnering for both Government and industry, including with a view to working together to determine priorities, and jointly developing relevant products and tools, such as general guidelines on surveillance or specific protective measures suggested for different types of facilities (for example, stadiums, hotels, malls or schools);
- (c) Establishing processes for the exchange of risk assessments between Government, industry and the private sector, to promote and increase situational awareness and strengthen soft target security and resilience;
- (d) Establishing processes for sharing relevant information with industry and private sector part ners by, for example, issuing security clearances and increasing awareness;
- (e) Promoting public-private partnerships by developing cooperation mechanisms, supporting business owners and operators and infrastructure managers and by sharing plans, policies and procedures, as appropriate;
- (f) Assisting in the delivery of e ective and targeted capacity development, training and other necessary resources, as well as technical assistance, where such delivery is needed to enable all States to develop appropriate capacity to implement contingency and response plans with

42

## VI. Preventing and combating the illicit tra f cking of small arms and light weapons

55. In May 2017, the Committee held an open brie ng on the theme "Preventing Terrorists from Ac quiring Weapons", which enabled participants to analyse and discuss, among other things, the in volvement of foreign terrorist ghters in the illicit tracking of weapons. The outcomes of that event paved the way for the unanimous adoption by the Security Council of its resolution 2370 (2017) which it recognized the need for Member States to take appropriate measures, consistent with inter national law, to address the illicit tracking in small arms and light weapons, in particular to terrorists, including by enhancing, where appropriate and consistent with their domestic legal frameworks, na tional systems for the collection and analysis of detailed data on the illicit tracking of such weapons

### Guiding Principle 52 a

In undertaking appropriate measures consistent with international law to address the illicit tracking in small arms and light weapons, in particular to terrorists, Member States should:

- (a) Maintain, develop or establish, and e ectively implement, national laws, regulations and ad ministrative procedures to ensure e ective control over the production, export, import and transit of small arms and light weapons, including by establishing as a criminal o ence their illicit manufacture, online trade or diversion to the illicit market through corruption;
- (b) Take all appropriate measures to prevent the diversion of small arms and light weapons when authorizing their international transfer, taking into consideration that, in accordance with the International Tracing Instrument, small arms and light weapons are considered illicit if they are transferred without a licence or authorization issued by a competent national authority;
- (c) Put in place and, as needed, strengthen certi cation processes and/or end user certi cates, as well as e ective legal and enforcement measures, and make every e ort, in accordance with national laws and practices and without prejudice to the right of States to re-export small arms and light weapons that they had previously imported, to notify the original exporting State in accordance with their bilateral agreements before the retransfer of those weapons;
- (d) Provide national law-enforcement authorities with mandates and resources to assist them in preventing and combating the illicit import, export or transit of small arms and light weapons into, from or through their territories;
- (e) Redouble national e orts to provide for the safe, secure and e ective management of stock piles of small arms and light weapons held by government armed and security forces, in par ticular in con ict and post-con ict situations, in accordance with the provisions of the Pro gramme of Action;
- (f) Take e ective measures to prevent and combat the illicit brokering of small arms and light weapons, making use of the recommendations contained in the report of the Group of-Gov ernmental Experts established pursuant to General Assembly resolution 6to8consider further steps to enhance international cooperation in preventing, combating and eradicating illicit brokering in small arms and light weapons;
- (g) Exchange and, in accordance with national legal frameworks and security requirements, apply experiences, lessons learned and best practices relating to the control of the export, import and transit of small arms and light weapons, including certi cation processes and/or end user certi cates.

b A/62/163 and

A practical tool to assist Member States in stemming the flow of foreign terrorist fighters, the Madrid Guiding Principles were identified at a Special meeting of the Security Council Counter-Terrorism Committee held in Madrid in July 2015. In light of important developments since, including the adoption by the Security Council of its resolution 2396 (2017) that focuses on returning and relocating foreign terrorist fighters, the Committee saw the need to update those principles. The addendum (S/2018/1177) to the Madrid Guiding Principles was adopted by the Committee and the Security Council in December 2018. Together with the original set of 35 guiding principles, the 17 additional guiding principles brings the total number of guiding principles on foreign terrorist fighters to 52.
