IslandsEnergyTransition towards a 1.5degrees world IRENAAOSIS Energy Compact operationalized through the SIDS Lighthouses Initiative

## SECTION AMBITION

	sespecifyfor whichambition from Section 1)		
	6 SID <b>©</b> n grid stability, resource assessment, roadmap analyses as well as on project fac <b>ilitation</b> cludes research and g RE technologies that is applicable to <b>கிற்கி</b> ly	2022-2030	
Description faction (please	sespecifyfor whichambitionfrom Section1)		
Action 5: Supportat least	10 projects in SIDSaccess affordable finander RE and EE project implementation entities in SIDS with energy projects	2022-2030	
Action 5: Supportat least 7 - Support direct access 6  Description of action (please	10 projects in SIDSaccess affordable financer RE and EE project implementation entities in SIDS with energy projects  sespecifyfor whichambition from Section 1)	2022-2030	
Action 5: Supportat least 7 - Support direct access 6  Description of action (please	10 projects in SIDS access affordable financer RE and EE project implementation entities in SIDS with energy projects  sespecifyfor whichambition from Section 1) houses Initiative hospitation to share information, knowledge, lessons learned and best practicles accessible and	2022-2030 Ongoing	

## SECTION **®**UTCOMES

3.1. Please add at least one measurable and thousedoutcomefor each of the actions from section 2. [Please add rows as needed].

Outcome for Action 1 All SIDS arsupported with NDC implementation related tenergy transition and climate action

Outcome for Action 2 All SIDS are provided with policy, regulatory and technical advice on the uptake of renewables

Outcome for Action 3- Capacity building provided at the national, regional global levels related to all aspects of energy transition and climate action in SIDS

Outcome for Action 4 All SIDS are provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided technical analysis support for grid stability, resource assessment, renewable energyarroal provided tec

Outcome for Action 5 SIDS are provided the necessary support to access affordable finance through the Cli

## SECTION: MONITORING AND REPORTING

- 6.1. Please describe wyou intend to track the progress of the proposed outcomessection 3Please also describe if you intend to use other existing reporting frameworks to track progress on the proposed outcomes
  - x IRENA publishes a progress annual report on the SIDS Lighthouses Initiativities based on updates provided by partners as well as the IRENA Staffsties total installed capacity target 10GW by 2030 will be monitored on a yearly bits with support from the Statistics unaited partners IRENA will also

## SECTION: ENERGY COMPAGENERAINFORMATION

8.1. Title/name of the Energy Compact

Islands Energy Transition towards a 1degree world:IRENAAOSIS Energy Compact operationalized through the SIDS Lighthouses Initiative

8.2. Lead entity name (for joint Energy Compacts please list all parties and include, in parenthesis, its entity type, using entity type from below

The International Rewable Energy Agen (Intergovernmental Organization) and the Alliance of Small Islan (States Multilateral Body)
