

frameworks, and policy options to manage trade-offs and maximize positive impacts. In addition,

About ITAIPU

Located on the Paraná River between Brazil and Paraguay, the [Itaipu Binacional](#) hydroelectric power plant is one of the world's largest generator of renewable energy. The company's projects in the areas of conservation of biodiversity and maintenance of ecosystem services and local cultures provide a strong example of joint efforts between two countries working together to achieve sustainable development and leadership on climate action. For more information on Itaipu, please visit: <https://itaipu.energy/>

About UN DESA

The United Nations Department of Economic and Social Affairs (UN DESA) is the lead agency in the United Nations system for the development of the Sustainable Development Goals (SDGs) and the 2030 Agenda for Sustainable Development. It also provides technical assistance and leadership in the implementation of the SDGs. For more information on UN DESA, please visit: <https://www.un.org/development/desa/>
